Namaste \nah-mah-stay\ (Sanskrit) Greeting of great respect, celebrating the interdependence of all living things

Solar PV Service Technician/Co-Owner:

ABOUT US:

Namaste Solar is a values-based employee-owned company. Namaste Solar is interested in hiring well-rounded team members who are committed to sustainability and are passionate about solar energy. If you're interested in joining the Namaste Solar team, we strongly recommend that you thoroughly review our website in order to learn more about us.

JOB DESCRIPTION:

We are seeking a self motivated individual to join our solar PV service department. This person will respond to service calls and trouble shoot & repair systems for commercial and residential systems. They will simultaneously work as a co-owner and participate with company big picture decision making, strategic planning, as well as projects that make a positive impact on our community. The ideal candidate is an individual who is:

- Interested in a long-term career in the solar industry.
- Well-rounded and capable of assuming multiple responsibilities. We are looking for people who can take on diverse tasks ranging from (but not limited to) hands-on installation to customer service and project management.
- Values-oriented: Namaste Solar is dedicated to the betterment of our planet through progressive environmental and social change. Our work is motivated through a desire to better the world in which we live. We are looking for team members whose personal values are in alignment with ours.
- Positive and team-oriented. We are employee owned and operated. Ability to work well with others is of paramount importance.
- An excellent communicator and self motivated.
- Experienced working with their hands and experienced in electrical work, construction, or carpentry. You must be comfortable standing and working on roof tops in both hot and cold weather.
- Comfortable with occasionally working long hours as required in order for the installation crew to complete the project for the day.

DESIRED QUALIFICATIONS

- Experience installing and troubleshooting solar PV installations.
- Strong understanding of grid-tied and off grid, battery based PV systems.
- Good at problem solving and working with manufacturer's tech support personnel to resolve system failures.
- Process RMA for failed components; shipping, receiving and documenting component failures.
- Ability to analyze PV system performance data.
- Strong computer skills including standard MS applications, especially MS Excel for use in analyzing system information and performance trends.
- Comfortably able to lift 75lbs, climb ladders, and work on roof tops.

Namaste \`nah-mah-stay\': (Sanskrit) Greeting of great respect, celebrating the interdependence of all living things

- An understanding of electrical wiring, sizing conduit, sizing wire, and bending pipe.
- Good working knowledge of NEC code, specifically Article 690.
- A plus to be able to read, understand, and edit electrical and structural plans.
- Excellent teamwork skills – ability to foster a positive team environment through collaborative decision making.
- Desired experience of at least 2 years working in the solar PV industry

EDUCATION

- Masters Degree, Bachelor Degrees or 3 years equivalent work experience
- CoSEIA and NABCEP certifications a plus, SEI/SLI class completion strongly desired.

If this sounds like you, please send a resume and cover letter that answers the following questions:

- What are your long-term career interests? Are you truly interested in pursuing a career in the solar PV industry above all else? We are looking for individuals to join us for the long term.
- What kind of day-to-day activities do you want to be doing? Both at the beginning as you get up to speed, and 1-2+ years from now?
- What kind of job roles do you enjoy?
- How would you describe yourself and your values? We are an employee-owned, values-based company and this is very important to us. If you haven't done so already, please check out the "About Us" page on our website for some more information on this subject.
- What are your compensation goals, both at the beginning and over time? Our starting salary is mid-\$30k, plus a generous health insurance plan, profit sharing, and 6 weeks Paid Time Off each year (PTO is prorated 1st year by start date). The 2nd year salary is mid-\$40k in addition to the above mentioned benefits.
- Lastly, include some questions that you'd like us to answer.

Please attach resume and cover letter and send to: jobs@namastesolar.com.
We look forward to learning more about you.
